January 2016 Newsletter

Can't believe that it's this time of year again. **IPPE 2016** is right around the corner. If you're coming to the show (**January 26 – 28th – GWCC – Atlanta, GA**), stop by our **booth # A2148**.

Everyone's talking about LED's – stop by our booth and see WATT'S NEW. Overdrive

NEW EH80 – 10 and 14 watt enclosed WET location fixtures.

- These offer 100 + lumens per watt and have retrofit hardware which allows the user to retrofit existing utility fixtures. These fixtures will offer the same competitive price levels where Overdrive is known to excel. Although this LED retrofit was designed for swine lighting (fixture can withstand heavier wash downs) the poultry industry has asked for a wet location fixture. This fixture may have roles in both industries. Other LED fixtures that are being introduced are far more expensive and have less lumens with more watts.
- 50,000 hour life
- 5 year warranty.

Dimmable 6 watt and 10 watt grow light A19 LED's. Multiple colors (30K designed for layer applications) (50K designed for broiler and turkey applications).

- 6 watt = 60 watt incandescent / 10 watt = 100 watt incandescent
- 5 year warranty
- 120 degree beam angle – which gives even light patterns where sockets are spaced 20' apart. Most A19 LEDs are Omni directional LED's which are 220 – 300 degree beam angled lamps. With the Overdrive 120 degree beam angled lamps you capture the maximum light from the lamp with no light loss on the sides or ceiling of the barn.

Non Dimmable 10 watt A19 LED's

- 2700K designed for Breeder House lighting and 50K designed for brood lights replacements for High wattage CFL's.
- Proven to be a reliable and solid light replacement for the 23 watt medium base CFL's used for brooding. Non-Dim actually produces more light than does the 23 watt CFL, uses far less electricity yielding an excellent 'ROI'.

Keep up with us on www.aglights.com and on our Facebook page – aglights.

We always appreciate our distributors. You've helped build the Overdrive quality name in the industry. Thank you!

Hope to see you in Atlanta.
